

Most Beloved Shri Mataji,

The world is sending you all their praises and salutations

When your smile, the whole world stops, for just the way that You are.

Our Mother is so beautiful, all that we want to do is to praise Your perfect beauty.

The whole world longs to see Your Face, and to touch Your Feet

This year in our region we have taken Your lead and Sahaja Yoga has been introduced to many new countries including Cambodia and Laos for the first time.

Yogis have also visited Sri Lanka, Bangladesh, Vietnam, Thailand, Malaysia, and have completed an extensive Tour of China.

The Yogis of Malaysia, Thailand, Vietnam, India, China and Hong Kong, lead by Alex, Ivan, and Pascal and the Yogis of our region have done tremendous work in hosting these programs, and follow-up programs.

We also plan to revisit Myanmar in September and to conduct a Northern Asian Tour in October introducing Sahaja Yoga to Korea, as well as visiting Taiwan and Japan.

Our only aim is to allow as many seekers as possible to see Your face and to attend Your program, and then all things can change, for their world can be so transformed, and from that point all things may change for their good, and the further enlightenment of the world.

Shri Mataji the whole world responds to Your amazing vibrations, and Your love which can alter the way we are, and whom we can be.

Most Beloved Mother You have showed us the way to take Sahaja Yoga to the world and to all the seekers with the formless expression of Your vibrations giving self realisation.

We are committed to continuing on with Your perfect work and to return to these countries for follow-up programs, to continue Your work of spiritual awakening.

During the coming Shri Ganesha Puja the hosting countries will be offering You a Video presentation showing some of the recent amazing experiences in SE Asia, as well as a photographic record of the programs, and other material.

We offer all this humbly to Your Lotus Feet, from which all the stars emanate and all that is good radiates.

Sincerely Chris Kyriacou
